## DETAILED ACTION

### *Response to Arguments*

Applicant's arguments filed 8/1/2005 with respect to claim 31 have been fully considered and are persuasive.

### *Allowable Subject Matter*

Claim 31 is allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest the combination of all limitations required in claim 31 that includes "...wherein the image sensing system has a **first memory that stores an adjustment amount used to correct a tilt of an optical axis of the image sensing optical system with respect to a reference plane, and a second memory that stores an adjustment amount used to correct a tilt of the image sensing element with respect to a reference line, and upon the adjustment, the adjustment amounts are read out from the first and second memories, **the readout adjustment amounts are merged, and adjustment is done using the merged adjustment amount.**"**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2615
